L'Assiette

A fine dining French restaurant located at The Chateau resort in Berjaya Hills, L'Assiette serves gourmet food in a quiet and charming environment. Due to its distance from the city, its solitude makes it an ideal dining location for an intimate time with a loved one. With The Chateau being the world's first organic and wellness resort, it is only fitting that its restaurant features and incorporates organic in-house produce in its dishes. L'Assiette strives to incorporate as many organic ingredients into its dishes as possible, resulting in fine foods that do not only taste and look good, but is also good for health. The restaurant features extravagant dining options, with starters such as cream of zucchini, roasted scallops with cauliflower done three ways or even king crab in tomato water jelly. Mains are divided into either meat and poultry or fish, with excellent choices such as the classic Wagyu beef served with potato gnocchi and fermented black garlic. Ask the waiter for wine and they will be glad to inform you that the establishment also carries a selection of organic wines. Dining at L'Assiette is to dine in a small fairy tale-esque venue, complete with plenty of natural greenery and beautiful architecture.
