KEY PRODUCTS:

VOYA

The Chateau Spa & Organic Wellness Resort in Malaysia's Berjaya Hills rises above the treetops of an ancient rain forest. A far cry from the bustle of nearby Kuala Lumpur, each of the 130 bedrooms opens out to breathtaking mountain vistas and views of the surrounding 18-hole golf course. An elegant, turreted castle, The Chateau may look like it's steeped in history but there's nothing antiquated about its approach to health and beauty. In fact, The Chateau offers some of the finest technologically advanced spa facilities in Asia. As part of your personalised journey to well-being, La Santé spa provides nutritional consultations, body sculpting sessions and yoga. Time in the respiratory-clearing salt grotto (set to a constant 45°C) dotted with Swarovski crystals, is a detoxifying process like no other. And the more temperate salt and mineral pools guarantee to leave your skin smooth and revitalised, while the herbal sauna completes the purification process. Massages, facials, body wraps and body scrubs all take place on multifaceted, temperature controlled massage beds; Soap Brush body scrubs are performed on the technologically brilliant Aquaveda Bed. As an alternative to the Spa Café's healthy, organic dishes delicious French cuisine is served in the fine-dining L'Assiette in addition to the all-day restaurant, La Vie.
